## GIN INSURANCE

The season for insuring gins is about here, and I am better equipped than ever to handle this class of business. My companies' rates are as reasonable as the hazard will admit and are as low as any reliable company.

I am also in position to insure country property—i.e. dwellings and country stores.

Nothing but Reliable and Strong Companies Represented

I am agent at Bryan for the Oliver Typewriter, the only standard visible writing machine.

## SEVEN DIE THURSDAY

Forty-Four New Cases Also Reported at New Orleans.

## NEW INFECTION NEST

More Yellow Fever Patients Being Brought to Light In Several of the Parishes of Stricken Pelican State.

New Orleans, Aug. 25—Following is yellow fever report up to 6 o'clock Thursday evening: New cases, 44; total, 1600; deaths, 7; total deaths, 226; new foci, 10; total, 360; remaining under treatment, 287.

The rather mild expression of hopefulness which Dr. White made a few days ago is made more emphatic by the steady improvement in the figures from day to day, and predictions are now freely being made that victory will be achieved before frost appears. There were no names of special prominence in the list of new cases Thursday. The new foci were principally up town, only two of them being in residential neighborhoods.

Surgeon White, with the assistance of Mayor Behrman, has arranged for the establishment of a new emergency hospital and detention camp. McDonough public school, on North Rampart street, has been impressed and made ready for occupancy, being equipped so that entire families can be accommodated comfortably until the period for the incubating of the disease has elapsed. The leading Italians have promised their hearty co-operation in the matter.

Heretofore there has been no interruption to traffic at places that are infected, and as a result many of the panic-stricken Italians have returned to New Orleans, and brought new infection with them. This will be prevented in the future.

Another nest of infection was found at a point not far from Patterson, in Assumption parish. Then cases were seen at Amelia and Dr. Chase, who made the inspection for the state board, says he learns there were fifty cases there in the past two weeks. A physician and fumigating force were sent there.

No definite news was received from Leesville, but as relief has reached there it is believed that conditions will soon be improved.

Dr. Rudolf, the state board physician at Patterson, discovered two positive and two suspicious cases on a plantation, two miles from that town. Patterson reports ten new cases.

Hanson City reports three new cases.

Two more are reported from Lake Providence, in East Carroll parish, and the state board is sending three nurses there. Three new cases developed on Elizabeth plantation, in Iberville.

Goodhope plantation, in St. Charles parish, reports three new cases and St. Rose one.

Port Barrow, in Assumption parish reports two new cases.

A case of secondary infection occurred at Lafourche Crossing.

Mississippi City reports one new case and one patient in a serious condition.

## LIMITED TO TEXANS.

People of Louisiana and Other Infected States Cannot Enter Camps.

Beaumont, Aug. 25.—The state health department is formulating plan, whereby the people admitted to Texas detention camps will be limited to citizens of Texas who were caught out of the state and not for the benefit of citizens of other states who are desirous of coming to Texas for business and other purposes. It is costing a lot of money for the state to maintain these camps and every occupant makes the cost just that much greater. People from Louisiana or any other infected state who are natives of such state will not be permitted to enter the detention camps on the Texas side at all.

## Against the World.

Vicksburg, Miss., Aug. 25.—Beginning Monday morning, Aug. 28, Vicksburg will be quarantined against the world. This is done because of the spread of yellow fever at Lake Providence, La. No one will be allowed to enter the city unless getting permission from City Physician Hicks.

## Body Found in River.

Laredo, Aug. 25.—A dead body was found floating in the Rio Grande near Carrizo, the county seat of Zapata county. The body taken out showed evident signs of having been killed and dragged before being thrown into the river. The only mark by which it is hoped to identify the corpse is a small silver ring worn on one of the fingers.

## Mitovil Wins.

Galveston, Aug. 25.—William Mitovil of this city defeated Harry Jordan of Houston in a wrestling match for the light-weight championship of the south, winning two best out of three falls in four and three minutes, respectively. The bout was for a side bet of \$50 a side. Mitovil weighed 144 pounds and Jordan 124.

## Great Gusher.

Lafayette, La., Aug. 25.—A first-class oil gusher came in at Anseal Butte. It spouts a stream over 100 feet high.

**RUSSIA REFUSES.**  
Will Pay Japan No Indemnity Nor Cede Any Territory.

St. Petersburg, Aug. 25.—The correspondent of Reuter's Telegram company was authorized by Count Lansdorff, the foreign minister, to state

LIEUTENANT GENERAL A. P. REDIGER,  
RUSSIA'S MINISTER OF WAR.

officially and in the most formal manner that Russia will pay Japan no contribution, direct or indirectly, nor will she make any cession of territory whatever.

## LAST APPEAL.

President Wants Board or Commissioner to Settle Sakhalin Matter.

Portsmouth, N. H., Aug. 25.—President Roosevelt's moves to save the peace conference are following each other in quick succession.

He is now believed to have taken a new step—possibly the signal one—in the shape of the purchase price of the northern half of the Island of Sakhalin to arbitrate of a board or a commission. Final arbitration has been in the president's mind from the beginning. He sent to M. Witte a long message.

## AWFUL DISASTER.

By a Collision One Hundred and Twenty-Seven Japanese Go Down.

Tokio, Aug. 25.—The Japanese transport Kinjo was sunk in a collision with the British steamer Baralong on Aug. 22 in the Inland sea. One hundred and twenty-seven invalided Japanese soldiers were drowned.

## INCREASE VOTED.

Western Pacific Railway Capital Stock Is Considerably Greater.

San Francisco, Aug. 25.—Stockholders of the Western Pacific railroad met here and formally voted to increase the capital stock of the company from \$50,000,000 to \$75,000,000. W. J. Barnett, Judge J. F. Vall, Denver, and several local parties held stock proxies of George J. Gould and other easterners to vote at the meeting. Mr. Barnett is first vice president and chief counsel of the company. Mr. Vall is chief counsel of the Goulds' Denver and Rio Grande railroad system. Representatives of New York banking firms which recently took up the \$50,000,000 bond issue company were present. Contracts for grading the road will be let within a few days.

## TERRIBLE TREATMENT.

Eyes Gouged Out and Ears Were Also Cut Off.

Odessa, Aug. 25.—During a fair in the village of Lihovia, in the district of Werdneprovsk, a crowd of peasants attacked the merchants. After pillaging their goods the peasants massacred a number of the merchants, and mutilated others, pricking out their eyes and cutting off their ears. Cosacks arrived too late to save the village, which was completely devastated.

## NINE DROWNED.

Terrific Cloudburst Converts Canyon Into a Raging Torrent.

Trinidad, Colo., Aug. 25.—A cloudburst in the vicinity of Rhode canyon, through which ordinarily a small stream of water runs, converted the canyon into a raging torrent Thursday night which swept through the towns of Berwind and Tobias, wrecking everything in its path and drowning at least nine persons. The property loss is estimated at hundreds of thousands of dollars, suffered mostly by the Colorado Fuel and Iron company and the Colorado Southern Railway company.

## TWENTY INNINGS.

Only Two Other Games Have Gone to This Extraordinary Limit.

After twenty innings of sensational play the Chicago club of the National league defeated Philadelphia at the Quaker city Thursday by the score of 2 to 1. Neither side scored until the thirteenth inning.

St. Louis, 4; Brooklyn, 0. New York, 8; Cincinnati, 0; New York, 6; Cincinnati, 6. Pittsburgh, 3; Boston, 1; Pittsburgh, 3; Boston, 0.

### BOATS FOR THE BRAZOS RIVER.

Waco, Texas, Aug. 23.—Mayor Baker is in receipt of a letter from Captain Edgar Jadwin, engineer in charge of the work on the Brazos river, giving full information concerning boats that are being constructed to operate on the Brazos river where it is navigable at this time. These boats will be operated for the present between Richmond and Galveston, the work on the river being completed this far.

He suggests in his letter that the boats should be from seventy-five to 175 feet in length and from seventeen to thirty-two feet wide, drawing about twenty inches. These boats should draw a small deckload, but the bulk of their load should be put on barges, which draw less than the draft of the steamer loaded. In this way he says that one or two feet less draft can be secured and a correspondingly farther distance gone up the river.

The engineer says the canal on the river will be three feet by January 1, and the work to Old Washington will be completed about February 1. The latter states that much inconvenience has been occasioned in the improvement of the river on account of high water, and it has been for this reason that the work has progressed rather slowly.

The engineer states that his report on the upper Brazos is now in the hands of the board of engineers on rivers and harbors, but does not intimate its contents.

In closing his letter, Captain Jadwin states that he and a few others will start at once by boat from Richmond to the mouth of the Brazos river, and extends Mayor Baker and Congressman Henry an invitation to join him and his party on this cruise. The trip is to be made on a sternwheel launch and they will start tomorrow evening or Friday morning. It will take three days to make the trip, barring accidents and the invitation to Mayor Baker and Congressman Henry is so cordial that it is quite likely that one or both will accept it.

Regarding the preparations for opening the College for the initial term Monday, Oct. 2, the Eagle learns that the preparations are going forward actively and with satisfactory progress; likewise that applications from pupils for admission to the school continue to come in at a rate which insures a successful opening.

An important meeting of board directors of the Texas Woman's College of Bryan was held Thursday afternoon, but the proceedings were not given out for publication until yesterday, and therefore did not appear in the Eagle yesterday morning. The meeting was the most important held since the enterprise was definitely determined upon, by reason of the fact that the two principal officers, the president and financial secretary, were elected.

Mr. F. Marion Law of this city was elected president of the College, but up to this time still has the matter under advisement and has not indicated whether he will accept or not. The Eagle believes Mr. Law would bring to the position the necessary ability, energy and executive capacity requisite to successfully project and carry on the great educational work begun here. Mr. Law has not only been liberally educated himself, but during his whole life has been in an atmosphere of educational work. His father, the late and well beloved Dr. F. M. Law, practically gave his life to the cause of Christian education, was widely known in Texas and out of the state, and left an enduring monument in the work he did for Texas schools. Mr. Law was educated at the Agricultural and Mechanical College and the University of Texas, and inheriting the traits of character which distinguished his father, he stands early in life well prepared for guiding the destinies of this new school, with which he has been actively identified since the movement was inaugurated, and to which he has contributed, by well directed efforts, much of the successful formative work already done.

Rev. B. B. Hall, formerly of Mississippi, but now of Dayton, Washington State, was elected by the board to the position of financial secretary, and his acceptance is practically assured. Rev. Hall was educated at the Mississippi College and the Southern Baptist theological school at Louisville, Ky. He has had much experience in this branch of school work, and is eminently fitted for it.

The board elected Dr. George B. Butler to the chair of Biblical Literature and Ethics and he has accepted. Dr. Butler may well be called the father of the College, inasmuch as he has lived and moved in its interest from the beginning, and to him more than to any other man its rapid progress is due. As acting president and president of the board of directors he has already left the impress of a strong man upon the institution. His consecration of life and character, breadth of mind and Christian culture will be a lasting and uplifting influence for good in the school.

Regarding the preparations for opening the College for the initial term Monday, Oct. 2, the Eagle learns that the preparations are going forward actively and with satisfactory progress; likewise that applications from pupils for admission to the school continue to come in at a rate which insures a successful opening.

### HAY FEVER ABOLISHED.

Medical Science Discovers a Cure for  
This Malady by Breathing Hyomei.

Among the important additions made to medical science in recent years, none is more notable than the positive announcement of a cure for hay fever. Exhaustive experiments with Hyomei prove that this treatment will prevent the attacks of hay fever if used for two or three weeks before the annual appearance of the disease, and it may be relied upon, if used faithfully after the sneezing and other annoying symptoms have appeared, to relieve at once and afford a permanent cure.

Stomach dosing cannot cure hay fever. A change of climate is the only treatment that gives any relief, and Hyomei, which mediates the air you breathe, acts upon this principle, giving in your own home a climate as healthy as that of the White Mountains or other health resorts.

The complete Hyomei outfit costs but \$1, extra bottles 50 cents. E. J. Jenkins having seen the good effect following the use of Hyomei in so many cases of hay fever that he is willing to sell the treatment with the understanding that if it does not give satisfaction, the money will be refunded to you.

#### CRAIG-NEIBERT NUPTIALS.

Prof. J. A. Craig of the Agricultural and Mechanical College, and Mrs. Carey Carr Neibert, were united in marriage yesterday afternoon at 3 o'clock at the residence of Mr. John Hanna, Rev. George E. Clothier performed the ceremony. Prof. and Mrs. Craig will reside at Bryan, where the former is a teacher in the Agricultural and Mechanical College. — Galveston News.

The foregoing announces an event which has been expected by the friends of the contracting parties here for some time. Prof. Craig is the head of one of the most important branches of the A. & M. College, being the director of the agricultural experiment stations. Mrs. Neibert was until recently connected with the hospital service at the college, and has many friends in society circles at College and in Bryan. Prof. Craig is congratulated upon winning the hand of a most cultured and attractive lady, and for both the Eagle wishes long life and happiness.

Lamar Bethen returned yesterday from the lower end of the county, where he is at work surveying the Harrington estate.

Mrs. Oscar Keeton and daughter, little Miss Fay of Jewett, are guests of Mr. and Mrs. R. T. Boyle.

Miss Nonie Adams left yesterday to join her father in a trip to Northeast Texas.

The Eagle wishes long life and happiness.

**Large Land Deal.**  
San Diego, Tex., Aug. 25.—A contract has just been closed between H. Megerie and J. C. Megerie of this county and J. F. Smith of Johnson county, by which the former conveys to the latter 300 acres of land in the Piedras Pintas valley, the consideration being in the neighborhood of \$35,000.

# STATE FAIR OF TEXAS

DALLAS, TEXAS

SEPTEMBER 30--OCTOBER 15, 1905

## ANNOUNCEMENT.

The present organization, known as the State Fair of Texas, stands today without a parallel in the history of Fairs. It is owned and managed by some fifteen hundred of the most prominent citizens of Dallas, who have donated the money to build a fire-proof auditorium and exposition building on the Fair Grounds, costing \$100,000 and in addition to this have advanced the princely sum of \$90,000 for premiums, purses and attractions that the Fair of 1905 may go down into history as the largest and grandest event of its kind ever given in the Southwest.

Every stockholder of this institution has signed an agreement to donate his stock for the good of the cause, and under a contract with the City of Dallas, it is agreed that no officer nor director, other than the Secretary, shall receive any compensation for his services and that every dollar earned by this Fair during the next twenty years shall be expended in the effort to make each succeeding Fair better than the last.

The gates of the Twentieth Annual Fair will open at 10 a.m., Sept. 30, 1905, the Fair continuing sixteen days.

During this period the public is assured of sixteen days solid pleasure and recreation, as well as the opportunity of seeing the largest and best display of live stock ever collected together in the South.

The lovers of speed horses are assured thirteen days racing with high-grade horses, competing for purses aggregating \$30,000, and last, but not least, the homeseker will have an opportunity to examine a complete display of the varied resources and industries of Texas, as well as those of her sister states.

For further information and details address the State Fair of Texas, Dallas, Texas.

Yours respectfully,

## STATE FAIR OF TEXAS

C. A. KEATING, President.

SYDNEY SMITH, Secretary.

Next to Buchanan's Market

## TWO Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatin.

## Kodol

### Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

## Digests What You Eat

Rests the stomach, rebuilds the tissues and gives firm flesh.

Prepared at the Laboratory of E.C. DeWitt & Co., Chicago, U.S.A.

## DISINFECT AND SCREEN

If This Is Done Dr. White Says the Fever Will Disappear

## IN EARLY OCTOBER.

Complete Sanitary Survey Is to Be Had of the City and an Effort Made to Locate Every Possible Focus.

New Orleans, Aug. 25.—If all houses are properly disinfected and screened there are reasonable hopes for a complete cessation of yellow fever on or before Oct. 1 was the message of hope given by Surgeon White to a meeting that filled St. Paul's Episcopal church, over which Bishop Sessums presided. If the citizens but do this, the doctor said, they deserve the commendation of the civilized world.

Dr. White said the Federal medical officers were now engaged in making a complete sanitary survey of the city. It was their purpose to acquire statistics covering every habitable portion of the municipality. Dr. White appealed for courteous treatment and cooperation with the inspectors. He said the service was trying to locate every focus. That is necessary if the campaign is to succeed completely, and urgency of co-operation is evidenced by the fact only that hitherto unknown focus in the generally infected section was discovered, the focus that the service has been searching for for some time. At the beginning of the fight the doctor said there were 100 of these unknown foci—five times the number the Havana authorities admit would swamp them and create an epidemic in that city. The record shows, he said, what has been accomplished in running them down. It is anticipated that when the authorities feel that the system is perfect there will be an effort to weed out cases of malarial and dengue fever from actual yellow fever, and when that comes to pass the evidence will be clear as to how successful has been the work of controlling the disease.

Governor Blanchard continues his efforts to keep the wheels of trains moving in Louisiana. He put himself in communication with railroad officials wherever there is interruption of service and ascertained the roads anxious to maintain service if permitted to do so by the various communities. The governor expects to get the Memphis, Helena and Louisiana road in operation again in a day or two. Unless he succeeds many people of north Louisiana who depend on this line will suffer for the necessities of life.

President Souchon of the state board goes to Patterson, La., to investigate conditions there. The people of that town would like the state board to take entire charge and it may do so. Patterson fever cases are mild and with sufficient physicians and nurses and a strong executive head it is thought danger of fatalities will be minimized.

Considerable trouble is had with the Italian community at Good Hope, La., near the Mississippi Valley road, a short distance above New Orleans. An emergency hospital has been erected, but the Italians are in rebellion against it, and there is not a sufficient police force to compel them to submit to the regulations. It is not improbable that if conditions fail to improve the governor will be asked to send troops into parish above New Orleans to enforce obedience to official authority.

Dr. Ehrt left here and was joined by Health Officer Aucino of Assumption at Shreveport. They go to Bayou Beaufort to investigate conditions there. Dr. Charles Sagnac discovered a large number of cases at Bayou Beaufort. They have not previously been reported because there was no physician at the settlement. The focus established through communication between Bayou Beaufort and Patterson.

Professor Robert Boyce of Liverpool, Eng., has had a conference with Rev. Dr. Warner and agreed to fill some lecture engagements. He will speak at Temple Sinai Monday night.

Early report of fever situation Friday was encouraging. There was a small report of new cases and only one death during the night. That was an Italian woman, Mrs. Russo, living on Tchoupitoulas street. She had been ill for five days, but called no doctor. Neighbors discovered her in a moribund condition.

Up to noon Friday there were nineteen new cases and three deaths.

### Have High Temperatures.

New York, Aug. 25.—Two of the crew of the steamer Chalmette, from New Orleans, have been removed from the ship at quarantine suffering from high temperatures and were transferred to Hoffman Island for observation.

### FAVORS CARPENTERS.

Six Thousand Union Men Receive an Increase of Wages.

Boston, Aug. 25.—Six thousand union carpenters of Boston received an increase of wages under the decision of Judge George T. Wentworth, to whom as special arbitrator employers and unionists submitted the question of a new working agreement. Judge Wentworth grants five of the main demands of the carpenters, including a wage increase from 27½ cents an hour to 41 cents or from \$3 to \$328 for an eight-hour day, double time for all over-time, instead of time and a half and eight instead of a nine-hour work day for all shop and mill hands.

### Fatal Result of Quarrel.

Wapanucka, I. T., Aug. 25.—Sam Bailey was shot and probably fatally wounded by Drewry Hackworth, six miles north of Wapanucka. Both are young men and members of prominent families, said to be closely united. They had quarreled over some differences arising from a horse trade.

National Irrigation congress recommends that reclamation act be extended to Texas.

Congregation of Lamar Avenue Baptist church at Paris, Tex., will erect a \$15,000 structure.

### SLICK, SIMPLE SCHEME.

By It Hundreds of Pieces of Baggage Have Been Stolen.

Chicago, Aug. 25.—The Inter Ocean says: The mysterious disappearance of hundreds of trunks and other baggage from railroad trains and stations in Chicago, St. Louis and Denver during the past two years is just revealed through the arrest here of Roy Aldrich, alias Roy Espay of California, and a woman giving the name of Daisy Dean and her home as Denver. They were arrested on the charge of stealing furs from a store in the Masonic temple. When their rooms were searched the police found a large number of trunks and suit cases and a profusion of most expensive clothing and toilet articles for men and women. Miss Dean confessed to the police Thursday her participation in a scheme which caused a large number of railroads to lose a vast amount of valuable baggage. The scheme was simple. They would take a trunk, satchel or suit case containing only a shirt or some other article of clothing and check it to some nearly point. After the trunk was placed in the baggage car either the man or woman would go to the baggage agent, hand him a half dollar, show the check and ask to be allowed to open the trunk or satchel in order to get out a clean shirt or some other article. In not a single case did a baggage master refuse their request. While ostensibly getting something out of a trunk to wear, the man or woman would exchange the check on an empty trunk or valise for one of the best appearing trunk or valise in the car. When the train reached destination to which the dummy baggage had been shipped Aldrich would immediately present a duplicate of the check, which he transferred to another trunk, get it, and take it to his room. When the owner of the trunk called for it he would be offered a dummy trunk of the sharper.

Detectors of the roads are now trying to locate the missing articles. The Dean woman admits much of it is in stores at various places, but so far she has refused to reveal where.

### SEE MILLS.

Train Ran Direct Into Yard of Amoskeag Manufacturing Company.

Manchester, N. H., Aug. 25.—A train from Portsmouth, to which was attached the special car of members of the Japanese peace delegation, arrived at this city at 10:15 o'clock Friday morning. The visitors did not alight at the station, but waited until their car had been switched onto the other tracks and ran directly into the yard of the Amoskeag Manufacturing company. There the party came out and immediately began tour of the big mills of the corporation.

### Visit Manchester.

Portsmouth, N. H., Aug. 25.—Baron Komura and four members of the Japanese peace mission left Portsmouth for Manchester, N. H., to visit the extensive cotton mills in that city. Mr. Takahira did not go.

### ANXIETY PREVAILS

Is Due to Discouraging Advices About the Portsmouth Conference.

Paris, Aug. 25.—Sentiment of deep anxiety prevails in official quarters here concerning the outcome of the Portsmouth conference owing to receipt of discouraging advices. Private reports received through official channels show that Grand Duke Vladimir, uncle of the emperor, is casting his powerful influence in favor of peace.

### JUMP OF DEATH.

Lady Leaps From a Train While Journeying to Texas.

St. Louis, Aug. 25.—Escaping from her uncle, who was taking her back to her home in Texas after a trip to Illinois, Mrs. Laura Oxford, aged thirty-two, jumped from a Burlington train that had stopped on the Eads bridge and was drowned in the river below. Nervous trouble is considered responsible for this suicide. When the train stopped Mrs. Oxford rose on pretense of getting a drink of water. At the end of the car she opened the door and before she could be restrained climbed over the chain rail on the bridge and dropped out of sight.

### American Ship Seized.

Washington, Aug. 25.—The state department received a cable dispatch from Yokohama saying that the ship Australia, owned by the Sprockels, had been seized. The dispatch gives no details of why the ship was seized or anything concerning the business in which she was engaged.

### CONDENSED HAPPENINGS.

Two soldiers died of cholera at Manila.

Galveston is to be fumigated every Wednesday.

Payments of Creek nation warrants begin on 28th.

An asphalt company has been organized at Ardmore.

Government of Warsaw, Poland, is under martial law.

Old Arkansas Club building at Shawnee, Okla., burned.

A railroad bridge near Radom, Poland, was blown up.

Rev. C. I. Rankin was badly gored by a bull at Guthrie, Okla.

Cheyenne and Arapahoe Indians want guardianships investigated.

American Bar association decided to oppose repeal of bankruptcy law.

Muskogee Gun club, with membership of over sixty-five, has been organized.

At Guthrie negro Baptists of Oklahoma are holding their annual convention.

National Irrigation congress recommends that reclamation act be extended to Texas.

Congregation of Lamar Avenue Baptist church at Paris, Tex., will erect a \$15,000 structure.

Congregation of Lamar Avenue Baptist church at Paris, Tex., will erect a \$15,000 structure.

### CONSUMPTION CURE.

Juice of Potatoes, Beets, Carrots, Onions, Etc., the Ingredients.

New York, Aug. 25.—Physicians of this city are much interested in a circular issued by the New York Post-Graduate hospital announcing the discovery of a new cure for consumption. This new remedy is the juice of raw vegetable vegetables—potatoes, beets, carrots, onions, celery and the like, procured by grinding and squeezing, a dose being two ounces after meals. The statement is made that eleven patients with well developed pulmonary tuberculosis have been absolutely cured and are now good subjects for life insurance risks. Fifty other patients are still under treatment, and said to be progressing satisfactorily.

Experiments along these lines have been going on at the hospital for several years, and occasional brief accounts have been published of cures alleged to have been performed. The basis of the work has been that to cure consumption beyond the incipient stage an "unknown something must be found in the diet." Now it is declared that this unknown nutrient or remedy has been at last discovered in vegetable juice.

Accompanying the circular are the names of two New York physicians who, it is stated, were appointed by the hospital authorities to observe and report on the experiments, and they speak in most sanguine terms of what has been accomplished and what will doubtless follow as the work proceeds.

In addition to applying the raw vegetable juice as a cure for the most obstinate case of consumption, the hospital's circular announces that "it is believed, moreover, that this may lead to a means by which everybody may be rendered immune from the deadly tuberculosis, just as safeguards from smallpox."

It is stated that the experiments were begun on a small scale, with only a few vegetables ground by hand. Later machinery was introduced, and nearly every vegetable used was employed.

### TO SUE CENTRAL.

Contention Is That Is a Parallel Line With Southern Pacific.

Austin, Aug. 25.—The railroad commission has issued an order directing the attorney general to file suit against the Houston and Texas Central railway for forfeiture of its charter on the ground that it is a parallel line with the Southern Pacific railway, which is owned by the same corporation.

The comptroller announced that many county judges are dilatory in forwarding to the department applications for Confederate pensions approved at the August term of the commissioners' courts. There is quite a rush for pensions, over 600 being now on file, and unless approved applications are forwarded promptly to Austin it is impossible to pass on them in time for the next apportionment, Oct. 1.

### SURVEY FINISHED

Ex-Land Commissioner Rogan Has Just Completed the Work.

Beaumont, Aug. 25.—Charles Rogan, ex-land commissioner, has just finished subtiring the survey to establish lines for water front for which W. P. H. McFadden of this city has asked the state for patents. In his application claimant alleges that the Noah Tevis league, on which this city is built, did not reach the bayou and river and intervening property was vacant. Survey just completed established the title of present owners and dissipates McFadden's claim.

On account of demoralization resulting from quarantine Beaumont unions have decided to abandon the Labor day celebration.

### Shot Seriously.

Comanche, Tex., Aug. 25.—At Hossin, near George Brown was twice shot and is in a critical condition. James Nunly, his brother-in-law, was jailed.

### Found Dead.

Dallas, Aug. 25.—A young man by the name of J. F. Baldwin was found dead in Oak Cliff. Heart disease is supposed cause.

### ROADS HOLD BACK.

Only One is Attaching Passenger Coaches to Freight Trains.

Shreveport, Aug. 25.—Up to noon Friday only one of the various roads entering the city had availed itself of the permission granted Thursday to attach passenger coaches to freight trains and operate to the parish boundary. The road in question was the Louisiana Railway and Navigation company and its train is, therefore, the first to resume limited passenger traffic.

Scores of citizens who left precipitately at
